From Rikki with Love

Marge and I agreed in a past life to come to Earth at this time to bring healing, joy, bliss and fun to those who are tired of eeking out day to day existences. We met in Oregon in 1847 during the gold rush days. I was a miner and Marge was the daughter of a laundry woman and she spent her day washing clothes. She had a brother also, whose total job was to fetch and carry water buckets so the wash could be done. Marge keep dreaming that maybe, just maybe, her prince would come to save her from her daily grind, however, that was not to be.

I was a gold miner and I was a spiritual person. Miners are not spiritual as a rule and so many times I was made fun of, and finally left the actual mine itself and staked a claim of my own on a river that I worked daily. I worked standing in the cold river for hours at a time, in the blistering sun or in the pouring or freezing rain.

Cancel

Rikki says: Beliefs help create your experience, so if you hear something you don't like or that you don't agree with, you simply say "cancel" silently or even out loud. This prevents that opinion or phrase from becoming part of your belief system.

Saying "cancel" silently can also

I went to town once a month to have my clothes laundered, to get food staples like salt, sugar, rice and some canned goods as well as turn in my gold earnings.

Marge & I struck up a friendship and I invited her to come to my spread for a day in the spring. We had a picnic which was her first and she lay in the field of wildflowers looking at the clouds and enjoyed a whole day of not having to work. Her hands were blistered from the lye and we talked of God, healing, and how there must be an easier, happier way for people to live. We made a pact that we would come back and help people have more of what they wanted. We talked of happier times and then it was time to go home.

Marge's brother caught the flu bug and infected both Marge and her mother. All three of them because of working in

the cold water daily ended up with pneumonia and died. I broke my ankle in the river when a rock slipped and could not get my foot out, so froze to death.

So, we have both come back to Earth; Marge as an Earthling & I came back as an angelic or angel and we have finally connected once again and are both committed to helping others have more of what they want.

Marge has agreed to write some books, open a healing center or sanctuary and do channeled healing work. She is your channel to the angels.

keep you out of arguments. When you can say "cancel" silently, it means to your subconscious I do not want that. However, if you don't say cancel, then you are basically agreeing with that statement and then adds it to your belief system. So by saying "cancel" silently, you can then continue the conversation with the

person or continue listening to the program you are listening to without buying into it and without having that belief that you don't want added to your experience. You can do this any time you hear something you don't like whether it is in person or transmitted via the media. Just say "cancel."

What is An Angel's Blessing?

Each of us has belief systems that we have adopted. A few ways we set up belief systems or creations are:

- Through things that people tell us or that we hear and accept as so and that acceptance sets up a filter for us to see through.

This could be via a parent, authority figure or some other person or some sort of media like Radio, TV, internet, etc.

- Reacting to an event that happens either positively or negatively, and then labeling it as "hard" or "easy" or "fun" which then it becomes part of our own reality

"You can ask the angels to clear the issues that are keeping you from having what you want."

- Deliberately deciding to believe something, such as "I like strawberries" or "I don't like strawberries."

Sometimes we can set up a whole collection of beliefs that act as evidence to prove to ourselves and/or to other people that something like 'x' is

unquestionably true. This collection of beliefs can then turn into an experience that is persistent or we can even be insistent about it them in our lives. All of those beliefs become a big ball or a mass. And as a result, we continue to experience those things because we are seeing the world through those filters. That insistence and persistence then perpetuates that symptom of having, being, or doing "x."

Other creations we set up for ourselves, consciously or unconsciously are limitations, patterns, blocks, programs, projections, assumptions, creations within or attached to other creations, and issues to mention a few.

An **ANGEL'S BLESSING** session uncovers these creations that you put in place, whether in this life time or some other time, space or dimension. Then the angelics clear and remove those things for you by eliminating the root, the root cause and the trauma that occurred for all. Then the angelics do forgiveness work for all and then you select something positive to put in that space so you can now experience what you prefer. We call this process an Angel's Blessing.

ANGELS & MORE ANGELS & OTHER NON PHYSICAL BEINGS

You can use your Guardian Angels or many other angels to help you in your daily life. Simply ask Source or the God of your Understanding to help the angels help you. Then ask the angel for what you want. Here is a partial listing of angels their specialties:

- Rikki**—Healing most things
- Michael**—Courage & Creating
- Rafael**—Healing
- Bethany**—Sacred Healing
- Chamuel**—Finds things that are lost & also helps with Careers

- Sedna**—Abundance
- Gabrielle**—Writing
- Jesus**—Healing
- Elijah**—Wisdom
- Quan Yin**—Wisdom
- St. Bernadette**—Healing
- Grace**—Balance & Fairness
- Guenevere**—Romantic Love
- Uriel**—Magic & Problem Solving
- Raziel**—Psychic

There are also guides that many of you use, and you can also ask them for help or guidance. I may have used different name spelling and perhaps even different specialties for each of these angels, but this is what I have used them for. For example, Chamuel can find my golf ball every time. I ask for the angels to help me on a daily basis. I ask them to keep me safe, to take care of my house when I am gone, to help me get well, to work with the guardian angels of those I am going to be with in a meeting so we can all come to peaceful resolution. They will help, they really will. Just ask.

GLAD TIDINGS

When you start a newsletter you need a name and since this is Rikki's, I asked him to spell it out. So, he spelled out G L A D T I D I N G S. *Oh yuck, Rikki, I can't use that..it is too churchified, and I want something with some oomph in it.* So he spelled M A R G E S W A Y. *Ha Ha..OK Rikki, funny, now can we please,*

oh pretty please, choose again.. Sure.. G L A D T I D I N G S. Rikki... I don't think you understand...I really want another name for our newsletter. OK? OK...So I made sure I had a crystal clear channel — only to receive...G L A D T I D I N G S. OK, Rikki, then can you please clear my resistance...and he did.

You can change your life, but you have to want to, decide to proceed and do so.

The Angel Lady

Have you ever had a job you loved so much that you couldn't wait to do it again, and so you found yourself getting up at all hours of the night or day to "play." Well, that is what doing angel work is for me. I don't know why I call it work because I feel like I get to play all day and or night.

Some of the work that is done is so awe inspiring it cannot be captured into words. Sometimes I feel like I get to touch God. I have seen hosts of angels surrounding a person who needed to be healed of cancer and watched the healing happen. I have also been the recipient of healings...many of them. I sometimes call them healings and sometimes call them blessings but in reality to me, they are both.

My first experience with an angel was when I was 13, and I saw the film the Song of Bernadette, where

the "lady" came to the children to do healing work. A few weeks later, I got tonsillitis and was told I was going to have an operation to take my tonsils out. I told my mom that God gave them to me and the "lady" could heal them, and she said "No, honey, that was just a movie." I told her that I knew it was a movie but that I had also "seen" the "lady" in the theater. So, being a good mom, she said, "Well, if you can have the "lady" heal your tonsils by Monday you can keep them." I replied that I knew the "lady" could do it. That "lady" turned out to be St. Bernadette, and I work with her lots and now call her Bernie, and I still have my tonsils and my mom became a believer. I did not know how to control or use my "gift" and for many years considered it a "curse." However, I attended many courses, like Avatar & became a Wizard. Then Spiritual

Response Therapy, and became a Practitioner. I learned how to do the 12 steps, and other self help things. I finally found Doreen Virtue and attended her Angel Therapy classes. I then learned how to work with angels and became licensed.

I practiced, got over my fear and sought out others who are like minded and finally decided I truly like doing this work & the angels & I are doing better & better as time goes by. I have a good connection with them & am still improving. I found I have the gift of many extra sensory perceptions & use them daily to help those who want help and it is the best "job" I ever had. However, I do get called the "irreverent reverend" occasionally and that, of course, only adds to the fun!

FEAR, FEAR & MORE FEAR ... FROM RIKKI

Many Earthlings are filled with fear, and have many programs that are fear based. These programs, limitations, patterns, and issues are not helpful to you or to anyone around you. Each time you hear yourself stating a fear, you can use the "cancel" strategy. However, you can also ask one of the angels to clear the fear for you.

So, here are the steps to follow and examples for each part. We will use Rikki...that's me...for the angel you are going to ask, and fear of falling as the fear you are trying to get over in this example.

You ask one of us to **eliminate what ever is causing you the fear symptom** you are experiencing, such as the fear of falling, ageing, dying, spiders or whatever. You are experiencing the symptom and we will find the actual cause to remove. This is the formula to get angels to help:

1. Decide which Angel or Angels you want to help you.
2. Ask God or Source to help that Angel or Angels to help you.
3. Then connect with the angels as follows:
"Connect me with "Rikki" in the name of the light."
4. Then tell the Angel what fear you want to eliminate and what you want it replaced with.

Eliminate whatever it is that is causing the symptom of "x" in all ways and replace it with "x."

For example:

"Rikki: Eliminate whatever it is that is causing the symptom of the fear of falling in all ways and replace it with

safety, surefootedness, excellent balance, and knowing that all things are happening FOR me and my benefit."

These words are just examples. You decide what you want gone and what you want in its place.

We are truly waiting to help you, and if you don't know the name of your guardians specifically, you can just use the words *"my guardian angels."* Remember the change takes place in universal time, not necessarily in yours.

There will be many more tips like this and specific words for specific creation removal-a whole book of them as soon as we can get Marge to channel them. She has started and has 6 chapters of book ONE done so far.

Meanwhile, we will continue to put tips in each and every news letter to help you have more of what you want.
